

## Applied Research Center Student Newsletter

### FIRE SAFETY PRESENTATION

On April 17<sup>th</sup> a Fire Safety Presentation took place in lab 208b. WM Director of Facilities Management, Sandra Prior and Fire Safety Officer Anthony Oubré came to the ARC to inspect the new NIA/VT lab and help train the new occupants.

Above: Anthony Oubré gave a presentation on types and uses of fire extinguishers and operating procedures.

### LAB VISIT

On April 11<sup>th</sup> members of the Eastern Virginia chapter of ASM International toured the ARC labs and observed the newly upgraded Hirox microscope in action. They also toured ODU's labs at the ARC.

### MORE LAB VISITORS

Another lab visit took place on April 21<sup>st</sup>. Brandt Robertson from ODU brought a group of ODU undergrads to visit the WM ARC labs.

Pictured above, left: Natalie is demonstrating the latest capabilities of the Hirox microscope. Everyone was impressed with the ease of operation and, of course, the great pictures!

### WORK IN PROGRESS

Pictured above are Tina Bunai, a research scientist at W&M and Haijain Chen, who recently got his Ph.D. in Physics. They are pictured here retrieving their latest data from the ToFSIMS data processing computer.
