### DETAILS:

Data: inspection\bsy\lineA\sharp3\070423A

Superharps IHA1C18A / B were located, along with the upstream and downstream quads are to be monitored for movements that may occur due to planned alterations. It was decided to survey the harps just prior to the actual installation. This will guarantee better monitoring of the superharps. The superharp's support pedestal bolts were also located at this time. The units are in the CEBA coordinate system in meters.

Bolts	Z(m)	X(m)	Y(m)
USBHA	-355.637	-61.611	98.747
USBHB	-355.451	-61.755	98.751
USBHC	-355.777	-62.176	98.749
USBHD	-355.959	-62.036	98.753
DSBHA	-358.176	-59.613	99.008
