#: F1003

DETAILS:

Below are the results of the 0F04 viewer survey performed on June 29, 2005. The angles reported are relative to ideal beam center (in degrees). A + pitch is clockwise looking from the beam left side, a + roll is cw looking downstream, and a + yaw is ccw looking from above.

LOCATION	PITCH	ROLL	YAW
Horizontal viewer	-1.230°	0.271°	0.000°
Vertical viewer	-1.487°	-0.697°	5.710°
