

POST DOCTORAL RESEARCH ASSOCIATE

#07046

The Old Dominion University Experimental Nuclear Physics group is seeking a post doctoral research associate starting in November 2007. Our group, consisting of five faculty and two research faculty, is heavily involved in many aspects of the physics program, data analysis and hardware development at the nearby Thomas Jefferson National Accelerator Facility (Jefferson Lab). The successful candidate will play a significant role in the search for new baryons through meson-baryon interference and other techniques and will also help support our Linux computer cluster. For more information, see <http://www.physics.odu.edu/nucexpt/>. A PhD in experimental nuclear or particle physics or related field is required.

The position is for multiple year assignment depending on performance. Interested candidates should submit a cover letter, curriculum vita, and three letters of reference to Old Dominion University Research Foundation, P.O. Box 6369, Norfolk, VA 23508 or e-mail to odurfjobs@odu.edu. Please specify **Job # 07046**. Screening of applicants will commence October 15 and continue until the position is filled. AA/EOE
