

## FACULTY POSITION IN EXPERIMENTAL NUCLEAR PHYSICS UNIVERSITY OF KENTUCKY

The Department of Physics and Astronomy at the University of Kentucky invites applications from well qualified candidates for a tenure-track Assistant Professorship in experimental electromagnetic nuclear physics. This search is for one of two new junior faculty members in our experimental nuclear physics group. The candidates must have a Ph.D. in physics and postdoctoral research experience. The nuclear physics program at UK focuses on the detailed understanding of the structure, interactions, and symmetries of hadrons in terms of their fundamental constituents. Our group has leadership roles in the polarized  $^3\text{He}$  program in Hall A at Jefferson Lab and in the LANL neutron EDM experiment which is expected to run at the newly established SNS (ORNL). Interested candidates should have experience in electromagnetic nuclear physics. The successful candidates are expected to strengthen our efforts in existing programs and to establish their own research careers, as well as contribute to the Department's undergraduate and graduate teaching missions. Details about our department can be found at <http://www.pa.uky.edu>.

Applicants should submit a curriculum vitae, a brief statement of present and future research plans, a publications list, and arrange for three letters of recommendation to be sent to **Prof. W. Korsch, Department of Physics and Astronomy, University of Kentucky, 177 Chem.-Phys. Bldg., Lexington, KY 40506-0055**. Initial consideration of applications will begin December 1, 2006 with an anticipated starting date of August, 2007. The University of Kentucky is an equal opportunity employer and strongly encourages applications from women and minorities.
